To Whom It May Concern,

It is a pleasure to work with Envirogreen Recycling on a day to day basis. Envirogreen Recycling are a highly efficient recycling company and have introduced many cost-cutting practices in Quinn Packaging to reduce our waste costs and increase recycling rates. We are delighted to be using them for recycling services since they pay top rates for recyclables and Quinn Packaging has great access to detailed recycling reports on their website envirogreenrecycling.com. Additionally it is great know how many trees and Co2 we have saved from recycling which will hopefully help us achieve further green accreditations

Envirogreen Recycling is highly reliable and provides great customer service. I would happily recommend them to any company.

Kind Regards,

Una McGovern
